ACA Objectives

REPRESENT the interests of our multi-professional membership by communicating effectively, for example, through its newsletter and website.

LEAD educational activity and support research development within the organisation.

INITIATE projects and engage with internal or external groups, organisations or companies; and likewise, contribute to projects that aim to maximize evidence-based continence care.

INFLUENCE UK wide clinical, professional and political developments in the field of continence care policy.

PROMOTE safe, high quality continence services that reflect UK wide policy developments.
